Supervisor Yvonne B. Burke, Chair

Supervisor Gloria Molina Supervisor Zev Yaroslavsky Supervisor Don Knabe

Supervisor Michael D. Antonovich

FROM:

Wendy L. Watanabe

Acting Auditor-Controller

SUBJECT:

AUDIT OF THE LOS ANGELES COUNTY REGIONAL PARK AND

OPEN SPACE DISTRICT FOR THE YEAR ENDED JUNE 30, 2007

Attached are the financial statements for the Los Angeles County Regional Park and Open Space District (District) for the year ended June 30, 2007. Pursuant to Government Code Section 26909, the statements have been audited by a Certified Public Accountant, Mayer Hoffman McCann P.C.

The auditor's report (attached) concludes that the financial statements are presented fairly in conformance with generally accepted accounting principles and State regulations governing special districts. The auditor also indicated that they found no material weaknesses in the District's controls over financial reporting.

Please call me if you have any questions, or your staff may contact Jim Schneiderman at (626) 293-1101.

Board of Supervisors Los Angeles County Regional Park and Open Space District Los Angeles, California

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities and each major fund of the Los Angeles County Regional Park and Open Space District (the "District"), a component unit of the County of Los Angeles, as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the management of the District. Our responsibility is to express opinions on these financial statements based on our audit. The prior year summarized comparative financial information has been derived from the financial statements of the District for the year ended June 30, 2006 and, in our report dated November 16, 2006, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2007, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America and State regulations governing special districts.

Board of Supervisors Los Angeles County Regional Park and Open Space District Page 2 of 2

The information identified in the accompanying table of contents as *Management's Discussion and Analysis* and *Required Supplementary Information* is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 8, 2008 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Mayer Hoffman Mc Cann P. C.

Irvine, California January 8, 2008

Management's Discussion and Analysis For the Year Ended June 30, 2007

Management's discussion and analysis of the Los Angeles County Regional Park and Open Space District (the District) provides a narrative overview of the District's financial activities for the fiscal year ended June 30, 2007. Please read it in conjunction with the accompanying financial statements, footnotes, and supplementary information.

Financial Highlights

- As more fully explained in the government-wide financial analysis below and in footnote 8 to the financial statements, net assets were \$16.7 million at June 30, 2007.
- During the current year, the District's net assets increased by \$35.9 million.
- The District's General Fund fund balance increased to \$261.2 million.
- The District reduced its outstanding debt during fiscal year 2006-2007 by \$20.5 million.

Financial Statement Overview

This annual report consists of a series of financial statements: 1) government-wide financial statements, 2) fund based financial statements, and 3) notes to the financial statements. In addition to the financial statements, this report contains required supplementary information and additional supplementary schedules.

Government-wide financial statements: The government-wide financial statements are designed to provide a broad overview of the District's activities and present a longer-term view of the District's finances.

• The Statement of Net Assets presents all of the District's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator to determine whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net assets changed during the fiscal year. All changes in net assets (revenues and expenses) are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Accordingly, revenues and expenses are reported in this statement for items that will result in cash flows in future fiscal periods (e.g. uncollected assessment revenues, and accrued but unpaid interest expenses).

The government-wide financial statements can be found on pages 9-10 of this report.

Fund based financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the District are Governmental fund types.

o Governmental Funds - All of the District's activities are reported in governmental funds. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed view of the District's operations. Governmental fund information helps to determine the amounts of financial resources used to finance the District's programs.

Net asset/net equity differences between the government-wide and fund based statements are highlighted on page 12 and are primarily the result of the inclusion of bonds payable, unamortized bond premium and refunding charges, accrued interest on bonds payable, and deferred revenue in the government-wide liabilities.

The difference between the changes in net assets/fund balances on the government-wide versus fund based statements is highlighted on page 14 and is primarily the result of reporting the repayment of bond principal as an expenditure in the fund based statements.

Notes to the Financial Statements: The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund based financial statements.

Government-wide Financial Analysis

Our government-wide analysis focuses on the net assets (Table 1) and changes in net assets (Table 2) for the District's governmental activities.

Table 1 Net Assets (in Thousands)

	Governmental Activities FY 2007 FY 2006			
Current and other assets Total assets	***************************************	342,296 342,296	\$	326,208 326,208
Long-term debt outstanding Other liabilities Total liabilities		311,623 13,966 325,589		332,117 13,250 345,367
Net assets- Unrestricted Total net assets		16,707 16,707		(19,159) (19,159)

GASB Statement 34 requires that the government-wide statements reflect a liability for the \$311.6 million in outstanding bonds issued to finance grants made to other governmental agencies, but does not permit the recognition of assets for future assessment revenues that are pledged for the annual debt service payments on the bonds. Amounts distributed to the cities and other eligible entities are recorded as expenses by the District and no capital assets are recorded. As a result, in previous years, the Statement of Net Assets has shown negative net assets. This year, the Statement of Net Assets reflected positive net assets for the first time, in the amount of approximately \$16.7 million. The bond covenants require the County to levy property taxes in future years to specifically repay the principal and interest on the bonds. Accordingly, the net assets related to these bonds are expected to continue to gradually increase as the bonds are redeemed.

Total assets of the District increased by 4.9% from the prior year to \$342 million due to a \$15 million increase in pooled cash and investments, a \$0.5 million increase in assessments receivable, and a \$0.6 million increase in interest receivable.

Total liabilities of the District decreased by 5.7% from the prior year to \$325.6 million due to a \$20.5 million decrease in long-term liabilities (bonds payable) and a \$0.7 million increase in project related expenditure accruals and interest payable.

Total net assets increased \$35.9 million to \$16.7 million due to an excess of general revenues (\$95.0 million in assessment revenue and investment income) over government expenses (\$59.1 million in grants to other agencies, bond interest expense, maintenance and administration).

Table 2 Changes in Net Assets (in Thousands)

	Governmental Activities Summary of Statement of Activities				
	FY 2007	FY 2006			
Revenues					
General revenues					
Assessment	\$ 78,088	\$ 77,825			
Investment income	16,115	11,683			
Other revenue	793	1,202			
Total revenues	94,996	90,710			
Expenses					
General government	42,417	45,444			
Interest expense	<u>16,713</u>	<u>17,477</u>			
Total expenses	59,130	62,921			
Increase (decrease) in net assets	\$ 35,866	\$ 27,789			

Investment income increased by \$4.4 million in 2007 due to higher investment yields. The District spent \$3.0 million less on park improvements and maintenance in 2007 and interest expense on bonds decreased by \$0.8 million.

Fund Based Financial Analysis

As of the end of the current fiscal year, the District's governmental funds reported combined fund balances of \$327.0 million, an increase of \$14.7 million from the prior year. Current year revenues from the governmental funds were \$91.2 million, an increase of 0.5% from the previous year. Expenditures in the current year were \$42.4 million, a decrease of 32.6% from the previous year.

Debt Management

At June 30, 2007, the District had Bonds Payable of \$311,622,945, the proceeds of which are being used to fund various park improvement projects and a debt service reserve fund. The debt service payments are secured by the District's annual benefit assessment to each assessable parcel as approved by the voters in 1992 and 1996. The District reduced its outstanding debt by \$20.5 million during fiscal year 2007.

Budgets

No material adjustments were made to either the District's original General Fund budget or the District's original Debt Service Fund budget. The adjustments that were made reflected changes to the revenue pledges resulting from the sale of the refunding bonds.

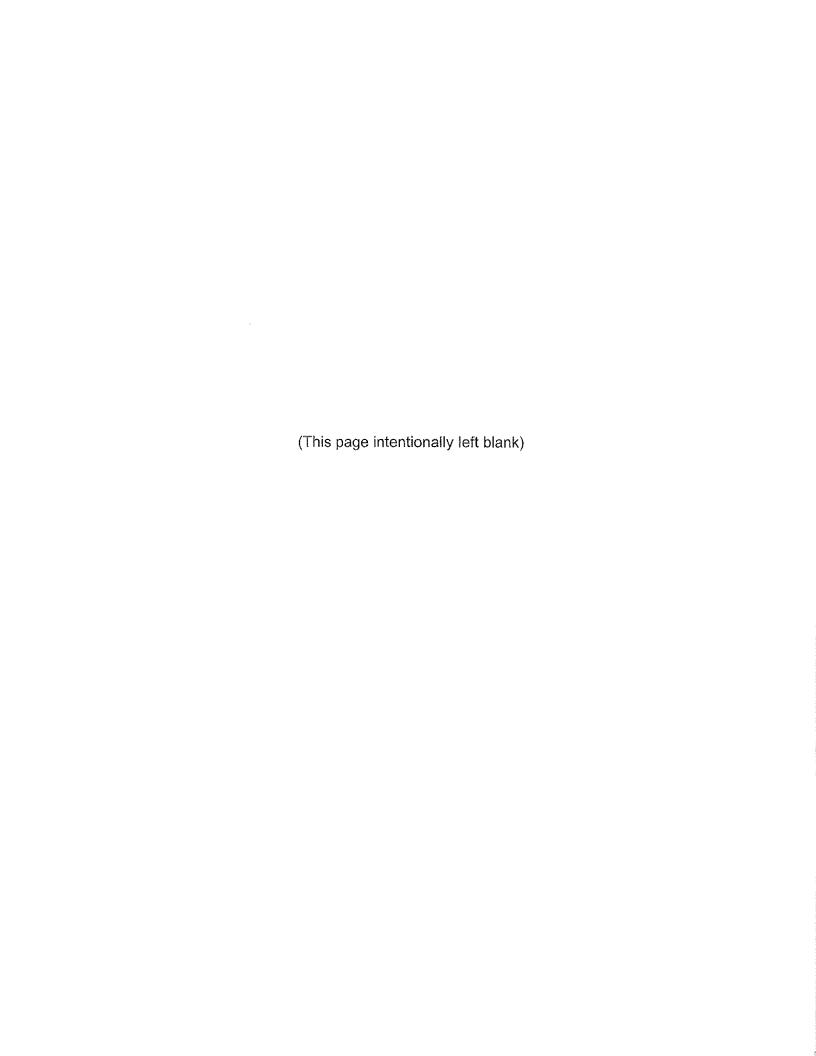

In the District's General Fund, the budgeted expenditures included encumbrances of \$78.4 million reflecting the District's obligations to fund future park improvements. These future expenditures will be funded with additional debt proceeds or assessment revenues. During fiscal year 2007, the District spent much less than the amount budgeted for park grants, projects, and maintenance. No new bonds were issued during the fiscal year, but as explained in footnote 9, the Series 1997A bonds were refunded on July 5, 2007, subsequent to the end of the fiscal year.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the County of Los Angeles, Department of Auditor-Controller, 500 West Temple Street Room 525, Los Angeles, CA 90012.

Notes to the Basic Financial Statements

Year Ended June 30, 2007

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies of the Los Angeles County Regional Park and Open Space District (the "District");

(a) <u>History and Organization</u>

General

Proposition A was passed by the voters on November 3, 1992, which provided for the formation of the assessment district "Regional Park and Open Space District" (the "District"). The District was formed and the assessments levied pursuant to Sections 5538.9 and 5539.9 of the California Public Resources Code. The objectives of the District are to improve the quality of life in the County of Los Angeles through the preservation of beaches, parks, and wild lands; the construction, renovation and improvement of new and existing recreational facilities; and the restoration of rivers, streams, and trails. These powers are exercised through the County of Los Angeles (the "County") Board of Supervisors, which acts as the governing body of the District. Among its duties, it approves the District's budget, determines the District's assessment rates, approves contracts, and determines when to issue bonds authorized by the voters of the District. On November 5, 1996, the voters approved the Safe Neighborhood Parks Proposition, which provided for the District to levy additional assessments and to amend the method of assessments within the District.

Reporting Entity

The District is a component financial reporting unit of the County of Los Angeles, as the governing board of the County also serves as the District's governing board, and the County is financially accountable for the District.

The District is included in the County's comprehensive annual financial report for the year ended June 30, 2007.

Notes to the Basic Financial Statements

(Continued)

- 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)
- (a) History and Organization, (Continued)

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth by generally accepted accounting principles ("GAAP"). The District does not have any components units.

(b) Basis of Accounting and Measurement Focus

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

Financial reporting is based upon all GASB pronouncements, as well as the FASB Bulletins that were issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989 are not followed in the preparation of the accompanying financial statements.

Notes to the Basic Financial Statements

(Continued)

- 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)
- (b) Basis of Accounting and Measurement Focus, (Continued)

Government-wide Financial Statements

Government-wide financial statements display information about the District as a whole. These statements include separate columns for the government and business-type activities of the primary government. The District does not have business-type activities. Eliminations have been made in the Statement of Activities so that certain allocated expenses are recorded only once (by the function to which they are allocated). However, general government expenses have not been allocated as indirect expenses to the various functions of the District.

Government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Under the economic resources measurement focus, all (both current and long-term) economic resources and obligations of the reporting government are reported in the government-wide financial statements. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33.

Program revenues include charges for services and payments made by parties outside of the reporting District's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program. The District did not have any program revenues for the year then ended.

Notes to the Basic Financial Statements

(Continued)

- 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)
- (b) Basis of Accounting and Measurement Focus, (Continued)

Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually and non-major funds in the aggregate for governmental funds. The District has no non-major funds.

Notes to the Basic Financial Statements

(Continued)

- 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)
- (b) Basis of Accounting and Measurement Focus, (Continued)

Governmental Fund Types

In the fund financial statements, governmental funds are presented using the *modified-accrual basis of accounting*. Their revenues are recognized when they become *measurable* and *available* as net current assets. *Measurable* means that the amounts can be estimated, or otherwise determined. *Available* means that amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. For this purpose, the District uses an availability period of 60 days for assessment revenues and 1 year for investment income.

Assessments and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent normally collected within the availability period. Other revenue items are considered to be measurable and available when cash is received by the district.

Exchange transactions are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). Locally imposed tax revenues are recognized as revenues in the period in which the underlying exchange transaction upon which they are based takes place. Imposed non-exchange transactions are recognized as revenues in the period for which they are imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. Government-mandated and voluntary non-exchange transactions are recognized as revenues when all applicable eligibility requirements have been met.

Notes to the Basic Financial Statements

(Continued)

- 1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)
- (b) Basis of Accounting and Measurement Focus, (Continued)

In the fund financial statements, governmental funds are presented using the current financial resources measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of "available expendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available expendable resources" during a period.

Non-current portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. However, special reporting treatments are used to indicate that they should not be considered "available expendable resources" since they do not represent net current assets. Recognition of governmental fund type revenues represented by non-current receivables is deferred until they become current receivables.

Non-current portions of other long-term receivables are offset by fund balance reserve accounts.

As a result of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as government fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability. Amounts paid to reduce long-term indebtedness are reported as fund expenditures.

Notes to the Basic Financial Statements

(Continued)

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

(b) Basis of Accounting and Measurement Focus, (Continued)

When both restricted and unrestricted resources are combined in a fund, expenditures are considered to be paid first from restricted resources and then from unrestricted resources.

(c) Major Funds

The major funds of the District are as follows:

General Fund:

The General Fund is available for any authorized purpose and is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund:

The Debt Service Fund is used to account for accumulation of resources for, and the payment of principal and interest.

(d) Cash and Investments

Investments are reported in the accompanying financial statements at fair value. Changes in fair value that occur during a fiscal year are reported as a component of *investment income*. *Investment income* also includes interest earnings and any gains or losses realized upon the liquidation, maturity, or sale of investments.

Notes to the Basic Financial Statements

(Continued)

1. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

(d) Cash and Investments, (Continued)

All cash and investment balances of the District are pooled and invested by the County Treasurer and are subject to withdrawal from the pool upon demand. Each fund's share in this pool is displayed in the accompanying financial statements as pooled *cash and investments*. Investment income earned by the pooled investments is allocated to the various funds based on fund's average cash and investment balance, as provided by California Government Code Section 53647.

(e) Capital Assets

The District provides funding to other entities, including the County, for purposes that may include acquiring real property. Title to properties acquired is recorded in the name of the purchasing entity, not the District. Accordingly, there are no capital assets recorded on the statement of net assets.

(f) Deferred Revenue

Deferred revenue in the fund financial statements represents receivables at year end that will not be collected soon enough to finance current year expenditures.

(g) Prior Year Data

Selected information regarding the prior year has been included in the accompanying financial statements. This information has been included for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's prior year financial statements, from which this selected financial data was derived.

Notes to the Basic Financial Statements

(Continued)

2. BENEFITS ASSESSMENTS

The District's primary revenue source is the assessments which are levied annually on each of the approximately 2.2 million parcels within the District's boundaries. The District, as authorized by the Government Code, levied an assessment on each parcel of real property within the District. The rate and method of apportionment used in levying annual assessments for various categories of property is established in the Engineer's Report for County of Los Angeles Landscaping and Lighting District No. 92-1. The level of each assessment is based on the size and use of each parcel and the resulting benefit each parcel will receive from the proposed projects. The estimation of such benefit is quantified by benefit points, which is based on the 1996 Proposition.

The annual rate of each assessment may not exceed \$14.46 per benefit point. The annual assessment for any parcel will consequently equal the annual rate multiplied by the number of benefit points applicable to each parcel. The assessment may be levied annually for a period of 22 years.

The expenditures of the District that are funded from the proceeds of the annual assessments levied and collected are distributed as follows: a minimum of 80% (but not more than 85%) of the assessments are used for the payment of debt service on bonds, notes and other obligations issued by the District and for the direct capitalized costs incurred on approved projects; 15% of assessments are used of for maintenance and servicing of completed projects; and up to 5% of the assessment are used to pay for the District's ongoing administrative expenses.

Notes to the Basic Financial Statements

(Continued)

TRANSACTIONS WITH THE COUNTY AND OTHER AGENCIES

The County is responsible for providing all necessary employees to the District for purposes of performing all District functions. Costs related to these employees are billed to the District based upon actual time spent providing District services. Accordingly, the District has no salaries and employee benefit expenditures or supplies inventory. Accrued expenditures in the amount of \$8,998,000 as of June 30, 2007, for services provided by the County and other agencies for reimbursable projects, have been recorded as "Due to Los Angeles County".

4. CASH AND INVESTMENTS

Pooled Cash and Investments

Cash and investments as of June 30, 2007 are classified in the accompanying financial statements as follows:

Statement of Net Assets:

Pooled cash and investments \$332,508,037

Total cash and investments \$332,508,037

Cash and investments as of June 30, 2007 consist of the following:

Equity in County investment pool \$332,508,037

Total cash and investments \$332,508,037

Notes to the Basic Financial Statements

(Continued)

4. CASH AND INVESTMENTS, (CONTINUED)

Equity in the Cash and Investment Pool of the County of Los Angeles

The District has no separate bank accounts or investments other than the District's equity in the Los Angeles County Treasury Pool. The District is a voluntary participant in that pool. This pool is governed by and under the regulatory oversight of the Los Angeles County Treasurer and Tax Collector.

The District has not adopted an investment policy separate from that of the County. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value calculated by the County for the entire County portfolio. The balance available for withdrawal is based on the accounting records maintained by the Los Angeles County Auditor Controller, which are recorded on an amortized cost basis.

Investments Authorized by Debt Agreements

Investment of debt proceeds is governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the County's investment policy. The table below identifies the investment types that are authorized. The table also identifies certain provisions of these debt agreements that address interest rate risk and concentration of credit risk.

Authorized Investment Type	Minimum <u>Rating</u>	Maximum <u>Maturity</u>	Maximum Percentage <u>Allowed</u>	Maximum Investment in One Issuer
U.S. Treasury Obligations	None	None	None	None

4. CASH AND INVESTMENTS, (CONTINUED)

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the County of Los Angeles manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the District's exposure to interest rate risk as a result of its equity in the cash and investment pool of the County of Los Angeles is provided by disclosures in the notes to the basic financial statements of the County of Los Angeles that shows the distribution of the County's investments by maturity.

Information about the sensitivity of the fair values of the District's investments with the County to market interest rate fluctuations is provided by the following table that shows the distribution of these investments by maturity:

		Remaining Maturity (in Months)			
Investment Type	<u>Total</u>	12 Months Or Less	13 to 24 Months	More Than 24 Months	
LA County Treasury Pool	\$332,508,037	332,508,037			
Total	\$332,508,037	332,508,037		_	

Notes to the Basic Financial Statements

(Continued)

4. CASH AND INVESTMENTS, (CONTINUED)

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the County's investment policy, or debt agreements, and the actual rating as of year end for each investment type. The County investment policy establishes minimum acceptable credit ratings for investments from any two nationally recognized statistical rating organizations. These guidelines are summarized in the notes to the basic financial statements of the County of Los Angeles.

investment Type	<u>Total</u>	Minimum Legal <u>Rating</u>	Exempt From <u>Disclosure</u>	Rating as	of Year End Not Rated
LA County Treasury Pool	\$332,508,037	None		***************************************	\$332,508,037
Total	\$332,508,037		_	ANNOCAL PER L	\$332,508,037

Concentration of Credit Risk

There are no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. All investments of the District are in an investment pool. Although the District has no limitations on the amount that can be invested in any one issuer beyond those stipulated by the California Government Code, all investments are in the Los Angeles County Treasury Pool which is subject to the County investment policy limitations on the amount of pooled funds that may be invested in any one issuer.

Custodial Credit Risk

The District does not have significant separate certificates of deposit or demand accounts with fiscal agent that are subject to disclosable custodial credit risk (as defined by GASB Statement No. 40). The District does not have direct investments in securities subject to disclosable custodial credit risk (as defined by GASB Statement No. 40).

Notes to the Basic Financial Statements

5. LONG-TERM OBLIGATIONS

The following is a summary of the changes in outstanding bonded indebtedness during the fiscal year ended June 30, 2007:

<u>Issuance</u>	Balance at June 30, 2006	Additions	Reductions	Balance at June 30, 2007	Amount Due Within One <u>Year</u>
1997 A Bonds	\$147,995,000	-	(21,475,000)	126,520,000	22,630,000
2005 A Bonds	177,715,000	~		177,715,000	-
Refunding	(12,754,679)	-	981,129	(11,773,550)	_
Premium	19,161,495			19,161,495	-
	<u>\$332,116,816</u>	The state of the s	(20,493,871)	311,622,945	22,630,000

1997 A Bond Issuance

On November 1, 1997, the District issued \$510,185,000 in Limited Obligation Improvement Bonds, Series 1997A, with interest rates ranging from 4.2% to 6.0%. The bonds were issued to advance refund the outstanding principal of the Series 1994A Bonds, and for acquisition, restoration, improvement, and preservation of beach, park, wildlife, and open space resources within the District. The bonds are payable from the proceeds of annual assessments levied on parcels within the district boundaries. Interest is payable April 1 and October 1 of each year. Final bonds mature in 2019. The outstanding balance as of June 30, 2007 is \$126,520,000. The District has established and maintained a reserve account in accordance with the bond indenture. The reserve account has a balance of \$17,720,922 as of June 30, 2007.

Notes to the Basic Financial Statements

(Continued)

5. LONG-TERM OBLIGATIONS, CONTINUED

2005 A Bond Issuance

On January 20, 2005, the District issued \$181,220,000 in Revenue Refunding Bonds, Series 2005A, with interest rates ranging from 3.0% to 5.25%. The bonds were issued to advance refund \$188,175,000 of the outstanding principal of the Series 1997A Bonds. The net proceeds of the bonds plus a portion of the 1997 bond reserve were used to purchase state and local government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded portion of the 1997 bonds. As a result, that portion of the 1997 bonds are considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net assets.

The 2005 bonds are payable from the proceeds of annual assessments levied on parcels within the district boundaries. Interest is payable April 1 and October 1 of each year. Final bonds mature in 2019. The outstanding balance as of June 30, 2007 is \$177,715,000.

The District has established and maintained a reserve account in accordance with the bond indenture. The reserve account has a balance of \$17,757,356 as of June 30, 2007. The funding in such amount provides a source of security that facilitated the marketing of the bonds at the interest rates provided thereon, was necessary for the District to obtain ratings from the rating agencies, was a vital factor in marketing the bonds, and is not in excess of the amount reasonably necessary for such purposes.

Notes to the Basic Financial Statements

(Continued)

5. LONG-TERM OBLIGATIONS, CONTINUED

The minimum annual requirements to amortize bonds as of June 30, 2007 are presented in the following schedule.

Year	1997 Bonds		2005 Bonds			
Ending					Premium	
<u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Principal</u>	<u>Interest</u>	<u>Amortization</u>	
2008	\$ 22,630,000	6,079,381	-	8,755,950	-	
2009	8,480,000	5,238,000	15,190,000	8,406,200	1,637,808	
2010	8,950,000	4,758,675	15,885,000	7,682,575	1,712,744	
2011	9,440,000	4,252,950	16,635,000	6,932,044	1,793,610	
2012	9,960,000	3,719,450	17,385,000	6,135,763	1,874,477	
2013	10,505,000	3,156,662	18,230,000	5,260,387	1,965,586	
2014	11,085,000	2,570,638	19,140,000	4,326,137	2.063.703	
2015	11,680,000	1,981,500	20,095,000	3,345,263	2,166,673	
2016	12,265,000	1,382,875	21,100,000	2,315,388	2,275,033	
2017	4,995,000	951,375	7,870,000	1,581,300	848,555	
2018	5,245,000	695,375	8,285,000	1,157,231	893,301	
2019	5,505,000	426,625	8,720,000	710.850	940,203	
2020	5,780,000	144,500	9,180,000	240,975	989,802	
Total	\$126,520,000	<u>35,358,006</u>	177,715,000	<u>56,850,063</u>	<u>19,161,495</u>	

6. INTERFUND TRANSFERS

Transfers in and out for the year ended June 30, 2007 are as follows:

Transfers from	Transfers to	<u>Amount</u>
General Fund	Debt Service Fund	\$33,710,242 (1)

(1) To transfer funds to cover debt service payments.

Notes to the Basic Financial Statements

(Continued)

7. CONTINGENT LIABILITIES

Claims and suits have been filed against the District in the normal course of business. The outcome of these matters is not presently determinable. However, in the opinion of management, the resolution of these matters is not expected to have a significant impact of the financial condition of the District.

8. UNRESTRICTED NET ASSETS

GASB Statement No. 34 requires that local governments record in the statement of net assets the local government's liability for debt issued to finance the construction and acquisition of assets to be owned by other parties. GASB Statements No. 33 and 34 do not permit the recognition of assets for future tax increment revenues that are pledged for the annual retirement of bonded debt issuances. Any negative equity resulting from the reporting of the District's liability for this debt is required by GASB No. 34 to be reported as unrestricted net assets. This year the Statement of Net Assets reflected positive net assets for the first time, in the amount of approximately \$16.7 million. In future years, net assets are expected to continue to gradually increase as the bonds are redeemed.

9. SUBSEQUENT EVENT

On July 5, 2007, the County issued \$94,315,000 of Regional Park and Open Space District Series 2007A Refunding Revenue Bonds, maturing from 2007 to 2019, with yields ranging from 3.52% to 3.94%. Proceeds from the sale of the bonds together with other monies of the District were used to redeem all of the outstanding Series 1997A District revenue bonds, fund a reserve account, and pay issuance costs.

Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual General Fund

Year Ended June 30, 2007

Notes to the Required Supplementary Information

Year ended June 30, 2007

1. BUDGETS AND BUDGETARY INFORMATION

In accordance with the provisions of Section 29000-29144 of the Government Code of the State of California (the "Government Code"), commonly known as the County Budget Act, a District budget is adopted on or before August 30 for each fiscal year. Budgets are adopted for the General Fund on a basis of accounting, which is different from generally accepted accounting principles ("GAAP").

For budgetary purposes, encumbrances and other reserves are also recorded as other financing uses at the time they are established. For encumbrances, this occurs at the time contracts or other purchase agreements are entered into. Other reserves are also recognized as other financing uses to indicate that certain assets (such as inventories) are not available for appropriation. Cancellations of encumbrances and other fund balance reserves are recorded as other financing sources for budgetary purposes.

Under the budgetary basis, property tax revenues are recognized to the extent that they are collectible within one year after year-end. Under the modified accrual basis, property tax revenues are recognized only to the extent that they are collectible within 60 days.

For budgetary purposes, investment income is recognized prior to the effect of changes in the fair value of investments. Under the modified accrual basis, the effects of such fair value changes have been recognized.

Expenditures are controlled on the object level for all District budgets. Any excess of budgeted expenditures and other financing uses over revenue and other financing sources is financed by beginning available fund balance as provided for in the County Budget Act. There were no expenditures that exceeded the related appropriations within any fund as of June 30, 2007.

Notes to the Required Supplementary Information

(Continued)

2. RECONCILIATION OF OPERATIONS ON MODIFIED ACCRUAL BASIS TO BUDGETARY BASIS

The District's Statement of Revenues, Expenditures and Changes in Fund Balances – All Governmental Fund Types has been prepared on the modified accrual basis of accounting in accordance with GAAP. The Budgetary Comparison Schedules for the General Fund and Debt Service Fund have been prepared on the budgetary basis, which is different from GAAP.

The following schedule is a reconciliation of the budgetary and net changes in GAAP fund balances as of June 30, 2007 (in thousands):

	General Fund	Debt Service
Net change in fund balance – budgetary basis	\$(34,888)	7,857

REPORT ON COMPLIANCE AND OTHER MATTERS AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Supervisors
Los Angeles County Regional Park and Open Space District
Los Angeles, California

We have audited the financial statements of the governmental activities and each major fund of the Los Angeles County Regional Park and Open Space District (the "District"), a component unit of the County of Los Angeles, as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 8, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control

Board of Supervisors Los Angeles County Regional Park and Open Space District Los Angeles, California Page Two

deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily disclose all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Supervisors, and management of the District and is not intended to be and should not be used by anyone other than these specified parties.

Irvine, California January 8, 2008

Mayer Hoffman Mclann P.C.
